

ESG Plan

Emergence Psychedelic Therapy, LLC

Last updated: January 2026

Introduction

Emergence Psychedelic Therapy, LLC is a Colorado-licensed micro healing center operating within the state's regulated Natural Medicine framework. Our mission is to provide a safe, structured, and supportive environment for psilocybin services while upholding high standards of environmental stewardship, social responsibility, and organizational governance.

Our Environmental, Social, and Governance (ESG) commitments reflect the belief that ethical healing work extends beyond individual experiences to include care for the environment, respect for community, and accountability in how services are offered and governed.

Environmental Commitments

Emergence Psychedelic Therapy, LLC is committed to minimizing environmental impact through mindful operational practices. We prioritize resource efficiency, including responsible energy and water use, reduction of unnecessary waste, and use of environmentally responsible office supplies and low-toxicity cleaning products whenever possible. Our Boulder-based location supports reduced transportation-related emissions through accessibility by public transportation, bicycle, and walking.

Social Commitments

* **Participant-Centered Care**

We strive to create a respectful, trauma-informed, and supportive healing-center environment that prioritizes safety, dignity, and informed participation.

* **Equity, Inclusion, and Accessibility**

Emergence Psychedelic Therapy, LLC is committed to inclusive and affirming practices for individuals of all backgrounds, identities, and lived experiences. This includes culturally informed care, LGBTQIA+ affirming practices, and consideration of limited reduced-fee participation options when feasible and consistent with operational capacity.

* **Community Engagement**

We seek to engage with local organizations, professional networks, and educational initiatives that promote responsible natural medicine use, mental health awareness, and community well-being.

* **Harm Reduction**

Harm reduction principles guide our approach through informed consent, participant autonomy, clear communication, and education around preparation, safety, and integration within legally permitted contexts.

Governance Commitments

* **Transparency and Compliance**

Emergence Psychedelic Therapy, LLC maintains clear communication regarding services, licensure status, scope of practice, and policies. We comply with all applicable federal, state, and local laws, including Colorado Natural Medicine statutes and DORA regulations.

* **Ethical Standards**

Our operations are guided by participant safety, informed consent, confidentiality, respectful boundaries, and clear separation between healing-center services and any external medical or clinical care.

* **Accountability**

We regularly review and update policies and practices to align with evolving regulations, ethical standards, and best practices.

Conclusion

Environmental, Social, and Governance principles are integral to how Emergence Psychedelic Therapy, LLC operates as a licensed healing center. Through responsible stewardship, inclusive practices, and transparent governance, we aim to support safe, ethical, and sustainable access to natural medicine services.
